

## **Letter to PARE Compliance Referral Partners**

Thank you for taking the time to review information about **Professional Accountability & Remediation Education (PARE)**.

We work successfully with physicians (both D.O. and M.D.) as well as Physician Assistants who are navigating disciplinary actions from a licensing board or employer. PARE provides a structured, educational remediation program designed for licensed healthcare professionals who have been referred by a licensing board, employer, attorney, or monitoring agency due to concerns involving professionalism, documentation, boundaries, communication, or other practice-related issues.

When a professional is referred to us, our office will complete an initial assessment and determine the appropriate program recommendation. Depending on the level of concern, the client will be enrolled in either our **8-week** or **12-week** program. Both tracks require the client to attend a **weekly 90-minute session**.

Each session begins with a **30-minute written self-reflection**, which is reviewed for insight, accountability, and evidence of growth. The remaining **60 minutes** focus on targeted educational work in the subject areas identified during the client's initial assessment and intake interview.

Our program emphasizes improvement, insight, and sustainable professional growth across multiple domains. We value the responsibility of working with members of the vulnerable public and are committed to maintaining the highest ethical standards to always support public safety.

You may reach a member of our team by calling **1-855-648-PARE** (phone or text) during our business hours, **9:00 AM to 5:00 PM CST**, Monday through Friday.
